

Environmental policy

Broadoaks Country House Hotel

Created: March 2022

Last Reviewed: N/A

Next Review: March 2023

Mission statement

At Broadoaks Country House Hotel we recognise that the environment is important to our business and our customers. We recognise our responsibility to manage our environmental impacts carefully. We are committed to reducing our environmental impact and continually improving our environmental performance as an integral part of our business strategy and operating methods, with regular review points. We will encourage guests, suppliers and other contacts to do the same.

Policy aims

We endeavour to:

- Incorporate environmental considerations into our business decisions.
- Continually improve and monitor our own environmental performance.
- Promote environmental awareness among our guests and suppliers.

Policy priorities

1. Energy

- We will continue to seek ways of reducing the amount of energy used in our building.
- Source our energy from the most sustainable supplier, subject to cost constraints.

2. Food & drink

- We will seek to reduce food waste and dispose of the remaining waste in the most sustainable way we can
- We will incorporate sustainability considerations into our sourcing of ingredients

3. Transportation

- We will promote more sustainable forms of transport to our guests and facilitate their use.

4. Cleaning & waste

- We will seek to reduce waste and increase rates of recycling, particularly by our guests.
- We will ensure that cleaning materials are as environmentally sustainable as possible.

5. Company administration

- We will prioritise environmental considerations in our key business decisions.
- We will promote our commitment to environmental protection to all of our customers and suppliers.

Our Environmental Management System

We have developed an Environmental Action Plan to ensure we meet the requirements of this policy. The Environmental Action Plan, together with this policy, comprises our Environmental Management System (EMS). Our EMS is independently certified by [Green Small Business](#). Our certification is maintained through an annual audit carried out independently by Green Small Business.

We will update this policy at least annually.
